Name:_____

Brian, Amy and Matt collect marbles. Brian has 195 marbles. Amy has 213. Matt has 205. They are going to the store. Brian will buy 5 new packs of marbles. Amy will buy 1 pack, and Matt will buy 4 packs. Each pack has 5 marbles.

After they buy their new marbles, put the children in order from greatest to least number of marbles and tell how many each child has.

Show your work. Explain in words how you found your answer and why you solved the problem the way you did.
